ID = E117770

BATCH - 615

DITEC-Online Final Assignment

Assignment Topic	Student Enrolment System		
Batch	615	Date Submitted	21 / 10 / 2021
Register No.	Student Name	Signature	Marks Obtained (to be filled by the Assessor)
00070375	Nethmi Isurika Daniel		

Register No.	Name	Signature	Date
00070375	Nethmi Isurika Daniel		21 / 10 / 2021

Acknowledgement

I would like to express my special thanks of gratitude to my lecturer " Mrs. Sasini Randunuge and my coordinator " Mr. Sam Vinoth " for their able guidance and support in completing my project.

Lecturer Mrs. Sasini and Coordinator Mr. Vinoth is the best lecturer and coordinator I have ever followed in my carrier.

I would also like to extend my gratitude to the ESOF owner " Mr. Dayan Rajapakse " and "ESOF METRO CAMPUS" for providing me with all the facility that was required.

ESOF Metro Campus is really helpful to my education. They are always improving student knowledge.

And once again I would like to thanks ESOF Metro campus and ESOF owner Mr. Dayan Rajapakse.

Thank You.

Introduction to the System

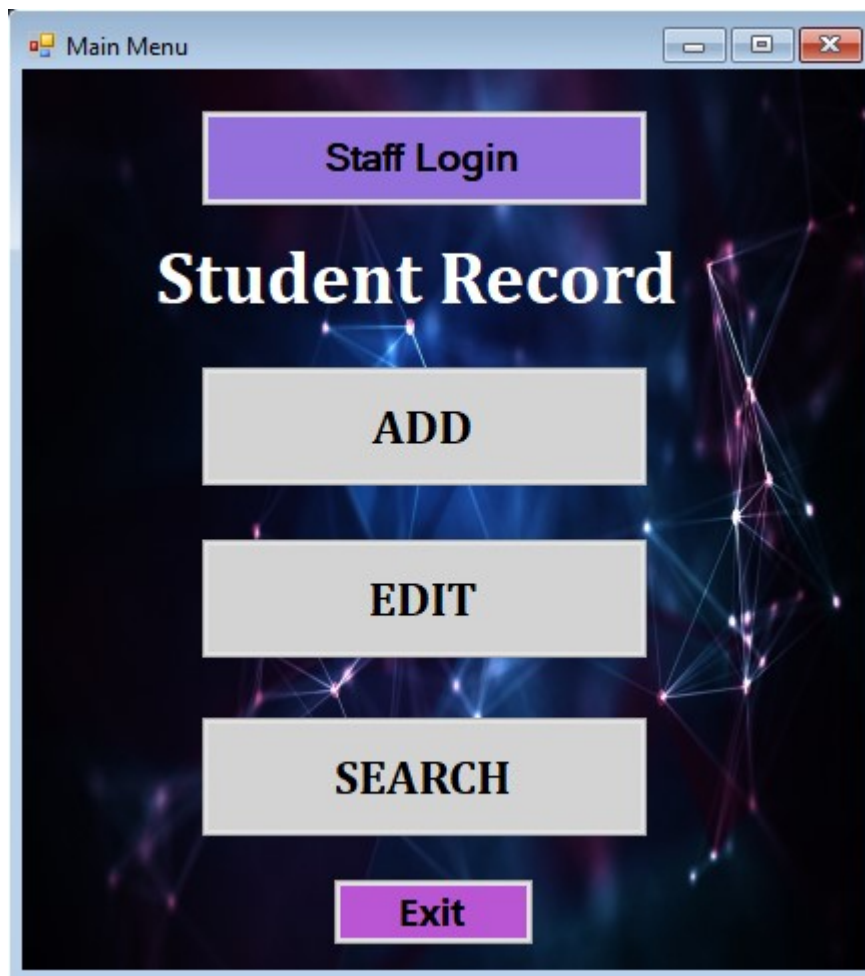

- Functional requirements

Can add, edit and delete student records and able to Search all student recodes as well. This system is used by admin staffs.

- Non - Functional requirements

None of the admin staff cannot be add, edit, delete students records to the system. Because this system is only can handle by the staffs.

User Interface Design

The image shows a login window titled "Login" with a blue header bar containing standard window controls. The background is a dark blue network visualization with glowing nodes and connecting lines. The word "Login" is displayed in a large, teal, serif font at the top center. Below it, the labels "Username" and "Password" are written in a white, serif font, each followed by a white rectangular input field. At the bottom center, there is a purple rectangular button with the word "Login" in white text.

Program Code Listing

- To Calculate Discount –

```
float fee = float.Parse(textBox8.Text);
float discount = float.Parse(textBox9.Text);

float disRare = fee - discount;

textBox10.Text = disRare.ToString();
```

- Exit Button –

```
Application.Exit();
```

- Login Page -

```
try
{

    String username = textBox1.Text;
    String password = textBox2.Text;

    SqlDataAdapter sda = new SqlDataAdapter("select count(*) from Een
where username = '" + username + "' and password = '" + password + "' ", con);

    //Retreive the value to a table
    DataTable dt = new DataTable();

    //Filling the value to the data table
    sda.Fill(dt);

    if (dt.Rows[0][0].ToString() == "1")
    {

        this.Hide();
        //Direct the user to the form1
        //New keyword is use to creat a new object

        Form1 Ob = new Form1();
        //To show the form
        Ob.Show();
    }
}
```

```
}  
else

Screen shots of the system demonstrate the functions of the System and Error Message

Simple User guide on how to operate the system

- i. Click on the “Staff Login Button” next we are direct to the “Login page” Next show the staff to login and the staff enter the username and password. When the staff login to the system the staff can see “Main Menu page”.
- ii. Click on the "Add Button" it redirects to the "Student Profile" page. We can add new student.
- iii. Click on the "Edit Button" next we can edit and delete student records.
- iv. Click on the "Search Button" and we can search all student records from the database.

Future Enhancement & Conclusion

I would like to send an e-mail or message to the student with the student password and ID number. I will add the student profile picture.
